

SMART DOORBELL

Let the smart doorbell tell who's waiting outside instead of you.

Add Comfort to Life with Fonri Wi-Fi

It is the next generation doorbell that works with your smart devices. Once the button is pressed, you will be called on your mobile phone and be able to make a mutual audio-video call. You can use Fonri Wi-Fi products alone or with one another, and create unlimited scenarios between each other.

Quick and Easy Setup

1.STEP

Download the **Fonri WiFi** application to your smartphone via the QR Codes below.

2.STEP

Put your product in setup mode.

3.STEP

Connect your Smart Doorbell with the **Fonri WiFi** app.
