Fonri

Wi Fi

Deterrent Sound

In undesirable situations in your living spaces, it gives a loud and light warning and notifies you of potential dangers.

High Sound Output

In case of any violation in the scenarios you define for the smart home products you use, it activates an alarm with loud sound and light and warns you and your loved ones against dangers.

Temperature and Humidity Monitoring

You can monitor the temperature and humidity of your living spaces through the application, as well as receive an audible alert when there is a change in the defined reference values.

Voice Control

Give voice commands with your smart watch, mobile phone and tablet without signing in the application.
